OREGONIANS AT ELKO.—The *Uniconist* publishes a letter from Mr O. S Coffee, formerly of that place, dated at Elko, May 18th, in which are mentioned several persons well known in this city Mr Coffee says,

"The town of Elko is improving very fast, though most of the buildings are of wood Real estate is at a raising in value and the town seems bound to be the headquarters of the White Pine district Large quantities of freight are being shipped from Chicago to this place. Mr. John Creighton has established a fast freight line from here to White Pine He makes the trip in three days, and consequently he controls all the fast freight at a fair figure He is the largest freighter on the road. Many are leaving perfectly disgusted with themselves and the country, while many more are daily coming in—mostly, however, speculators Among them I notice Col. J. C. Dow. The Col seems to be doing well, and has only required me to drink with him once within the last four weeks He has some fine property and from the manner in which he is conducting himself, will, I think, make some money Another Oregonian I have met is Col. Gray, member of the Legislature from Grant county. He has purchased four lots, and is going to build a large hotel. White Pine continues to turn out a large amount of bullion, and some new discoveries have lately been made, and other good ledges will probably be struck, as there are thousands of prospectors on the hunt. Stage fare from here to White Pine is down to $5, caused by the strong opposition now on the road. There are six stage lines now running daily. The railroad is now connected, and I have seen some very fine cars come in from the East. There was great excitement here on connection day, numberless shells were fired at half minute intervals during the whole day, and the locomotive whistles deafened any one within a mile of the town. Two men were wounded with the anvils, and another had his legs broken by the cars Mr. and Mrs. F. Bartels were here on the 13th, on their way to Europe. Captain Crawford and Joe Teal, of Van ..., W. T., came in from Sacramento last Sunday They started for White Pine yesterday. McGinnelly, who ... through Oregon last year with a minstrel troupe, will in a few days open a theater here.

THE SHOOTING AFFIR AT VANCOUVER.—The *Herald* has expended considerable energy in attempting to prove that politics had nothing to do with the recent shooting affair at Vancouver. The attempt is silly when everybody knows that the old family feud between the parties had long been sleeping, till Mr. Fletcher came out for Garfielde and commenced laboring for his election; that Mr. Fletcher's trip to Puget Sound to assist Mr Garfielde was what drew out the letter from Van Vleet, and that that letter, written for a political purpose, was the immediate cause of the quarrel and its results. But for the position taken by Mr Fletcher and that letter from Van Vleet, the "old family quarrel" would not have been revived The affair is that much mixed with politics. One of the Coffey's is the Democratic candidate for Sheriff in Clarke county, and his ... ing in a row in which an unarmed man was shot, ... he did it or not, connects the matter with the political struggle there, inevitably It remains to be seen whether the people of Clarke county want such a man for an officer whose duty it is to be a conservator of the peace. The *Herald* seems to be trying about as hard as anybody we know of to work up as much political advantage as can be got out of the case. It says yesterday morning that "the evidence is most positive that Mr Alex. Coffey did not shoot Mr Fletcher." A sentence or two further down it says, "It would not surprise us finally to learn that a Republican did the shooting, and not a Democrat." Notwithstanding this evident effort of the *Herald* to shield its political friends—till after the ... is th... seems to be no doubt that one or both of the C. F.s did shoot, and the ball from a pistol in the hands of one or both of them hit Mr. Fletcher. We are ... that the *Herald* did not say at once that Mr ... shot himself. Its modesty and candor were ... not what restrained it from fixing the thing up ... that way. The examination of the parties had not ... at our last accounts from Vancouver. Mr ... was reported, yesterday, to be improving, and the attending physicians entertain hopes of his ultimate ...

FROM THE DALLES.—The *Mountaineer* of yesterday ... the following information:

Mr. E. Schanz, Esq., of this city, has been appointed by Mr. Yeazy, U. S. Marshal for Oregon, Deputy U. S. Marshal of this District.

We are informed that Surveyor General Applegate has given D. F. Thompson, of Oregon City, a contract to survey the land along John Day valley for sixty or seventy ...

On Saturday evening while a number of boys were ... in the reservoir on the bluff, the youngest son of Mr. R. Donnell, who was not able to swim, got out beyond his depth and came very near being drowned. Eddy Condon, son of Jer Thomas Condon, seeing ... disappear under the water immediately went to his ..., dove down and brought him to the shore almost unharmed.

MINE NEWS.—The *Mountaineer* says: From Mr. O. ... Thornbury, of Camp Watson, we received a small ... of gold dust taken from the new mines lately ... on Rock Creek, some four or five miles from Camp Watson. These mines are said to be extensive and rich. We hope it may be true and that the next pack ... to us will contain a larger sample.

Wm. C. Milby and N. W. Hicks, merchants from the new diggings in the Kootenai country, arrived in this city on Wednesday, and report everything in that ... as being in a flourishing condition. At present there are about five hundred miners in the diggings. The ... are paying exceeding well. Mr. Milby showed us ... specimens of gold taken from the new mines, one of which weighed within a fraction of $100. The gold is very fine and assays over $18 per ounce. It is expected that there will be a big rush to the new mines from Mon... coming season.

DEATHS.—Among the arrivals by the *Continental* on Monday evening last, says the *Advocate*, were two young ladies of Oregon, graduates of the Female College of the Pacific, at Oakland, California. These were Miss ... Patterson and Miss Addie Lewelling, who having ... their course of studies with honors to themselves, and their diplomas on Commencement Day, May ... We very flattering testimonials given to ... Oregonian young ladies by the President and Professors of the college, were also noticed in the *Oakland Times*, that their rank as scholars was very high, their elocution worthy of especial comment May the ... of these young ladies be as bright and useful as the late course has been honorable and successful.

SOME MEN IN BUCKRAM.—The *Herald* has a correspondent at Vancouver who seems to be a genuine descendant of old Jack Falstaff. He tells a sensational story, in old Jack's vein exactly, about Frank Clark going to the *Register* office to get a paper, when Capt. Adams shut the door and flourished a villainous pistol ... etc. A note from Capt. Adams puts down this Falstaffian correspondent as follows:

"The letter of the fellow David in the *Oregon Herald* is false; what their fears magnified into a *pistol* was only a *printer's shooting stick*."

The search for the nine men in buckram whom Frank ... now and ran away from.

The New York *Times* says In speaking of the interference of our Government in the affairs of Cuba, a member of Grant's Cabinet lately said to a gentleman—who hastened to put the remark in print—that "the Administration will have its hands full if it attend promptly to the affairs of our own country." This is a remarkable opinion It expresses exactly the idea we have always held, but it is none the less exhilirating to see that such sound common sense and statesmanship can exist in the head of a high political functionary There is some hope of public reform and administrative decency when such a man is a member of the Cabinet.

A Frenchman brought two mugs to the milk man in place of one, as usual, and, on being asked the meaning of it, replied "Dis for to milk, and dis for to water; an' I will mix them so as to soote myself."

VALUABLE TESTIMONY.—The following recommendation comes from a source of such well known and indisputable character, that it requires no comment beyond its publication

I have given "*Kane's Imperial Ondenated Soap*" a thorough and impartial trial, and am satisfied it will do all that is claimed for it I washed three dozen white shirts, using half a bar of soap It did its work well, requiring no rubbing, and I cheerfully recommend it as the best Washing Compound I ever used.

THE MAMMOTH OX!

TO THE PEOPLE OF OREGON LOOK TO YOUR INTERESTS!

F. M. MORRIS AND W. C. AVERY,

BOTH OLD OREGONIANS AND HAVING, NO doubt,

THE LARGEST OX IN THE WORLD!

propose to the people of Oregon to take this Monster OX to the Atlantic States and exhibit the same as an Oregon production, and before leaving the State they wish every man, woman and child to see

Mt. Hood upon Legs!

and in order to give them an opportunity, they will exhibit him in the principal towns on the Willamette, for the sum of 25 cents, children half price. Their object in doing this is to raise the necessary cash to pay transportation All those who think it would have a tendency to wake up the people of the Eastern States to realize the fact that there is such a place as Oregon on the Pacific Slope, and that not only large cattle but every thing else is far in advance of the rest of the world, and that all that is required is industry and economy to realize a fortune in Oregon in a few years at most—and the best place to enjoy life after you have accumulated a fortune.

Business men—make a note of this and remember—MONEY MAKES THE OX GO, and patronize accordingly

The MAMMOTH OX has been removed to the corner of Morrison and Third streets, where he can be seen through the day and until 10 o'clock at night.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

Political Speculations.

CHICAGO, June 3.—A Washington special states that a movement is on foot among the Republican politicians to make the position taken by the Senate on the *Alabama* claims, a question in the canvass this fall. Arrangements are being made to carry out this programme in the ensuing election in Pennsylvania. Governor Curtin, Colonel Forney and other politicians of Pennsylvania are favoring this course, the advocates of which believe they can thus force the Democrats to follow the lead of the Republican party or take sides with England, in either case damaging themselves by thousands of votes.

The Indian Troubles

ST. LOUIS, June 3.—A *Republican's* special from Fort Hayes states that the Indians who are depredating on the frontier do not belong to the tribes operated upon last winter, south of the Arkansas river, but belong to the Northern Cheyennes, Sioux and Arapahoes, who have come south from the Department of the Platte.

LEAVENWORTH, June 3.—The *Times* has received the following additional particulars of the Indian massacres at Forest creek. The tongues and hearts were cut of the bodies of the men killed, and the calves of their legs slit down under their shoes. Pieces of flesh were cut from their backs and pieces of telegraph wire were stuck into their bodies and their ears were cut off and their heads scalped. The Indians boiled the hearts of these men for medicine.

The Swedish settlers, who were attacked on Spellman creek, have arrived. In one house only part of these were killed and they left the house and attempted to reach a place of greater security. Those who remained in the house were not molested. This occurred in two or three instances. The calamity is mainly attributable to a lack of arms, for whoever a gun was fired the savages made no fight. The Indians drove off considerable stock from these settlements.

Relations with Canada.

NEW YORK, June 3.—In the Chamber of Commerce to-day, General Walbridge introduced a resolution favoring a reciprocity treaty with Canada, for securing the freedom of the St. Lawrence, the freedom of the fisheries, etc. Gen. Walbridge said, while opposing the acquisition of Canada by force, he would welcome its people when coming voluntarily. He did not think it good policy to attempt to coerce Canada by commercial restrictions into a union with the United States. Intimate commercial relations could be brought about upon terms mutually beneficial, and the political result will follow in good time.

Gen. Walbridge stated the questions between the United States and the Provinces: First, interchange of the natural products of the soil upon such reciprocal terms as may be agreed upon. Second, assimilation of excise and patent and copy right laws. Third, free navigation of the river St. Lawrence, and enlargement of the canals. Fourth, freedom in the fisheries on the coast of British America. Fifth, regulation of the transit trade. He then proceeded to argue in favor of the resolutions and propositions above advanced, contending that while the Canadians will be satisfied with the conveniences of selling in our markets in return for the enlargement of the St. Lawrence canal by them, free of cost to the United States, we will have freedom of the St. Lawrence and fisheries. Yet that convenience, vast as its advantages are to them, will work no competition to their farms, and be an absolute gain to our agriculture our capital and credit. Those together with the fact that we have free access to the ocean at all seasons of the year would be a great convenience to the Canadians; but their use also necessarily implies that using our capital and our ports we shall derive the advantages which possession of capital, credit and ports gives to a community. In other words, we should become the merchants of four millions of people whom we are now driving away. The resolutions were adopted and it was voted that a copy of the argument be transmitted to the Secretary of State, who it is understood is about to take into consideration the proposition advocated by Walbridge.

BY ATLANTIC CABLE.

LONDON, June 2.—In the House of Commons, last night, Sirly, member for Lincoln, made remarks on the ocean postage and urged that in future contracts for carrying mails to the United States be made for no longer than two years, and that payments for service be regulated by the amount of mails carried. He advocated ocean penny postage and hoped negotiations would be entered into with the United States for the establishing of that system. The Marquis of Hastings, Postmaster General, defended the late mail contract by the Government. Although he sympathized with the sentiments of Sirly, he was opposed to his proposals, which if carried into effect, would lead to uncertainty in the service and to discrimination on the part of steamships to compete with each other. He thought the present contract would be the last which would be made with a fixed subsidy, but he was altogether doubtful of success of any negotiations for the establishment of penny postage across the Atlantic. At the conclusion of the Postmaster General's reply the subject was dropped.

Moore moved that a special committee be appointed to inquire into the treatment of the untried Irish political prisoners. Fortescue, Secretary for Ireland, believed the complaints made of the ill treatment of the prisoners were exaggerated, but he thought political prisoners awaiting trial should be held under the supervision of Government officers, and not kept in county jails. After remarks from Gray and Maguire, condemning the present system of holding untried prisoners in confinement, the House divided on the motion and refused to appoint a committee by a vote of 20 to 84.

LONDON, June 3.—Dispatches are received today, from Molda, a small town in the North of Wales, giving the details of a riot which occurred last evening. Several lives were lost and many were injured. An attempt was made to rescue two prisoners in the hands of the Sheriff. The Sheriff and guard resisted manfully but the mob being too strong it was found necessary to call out the militia which fired on the rioters killing four and wounding many others. The last dispatch says the town is quiet and the prisoners are in custody.
